

## France 2024 A culinary escape for cycling enthusiasts...

### Wine, dine and cycle through the south of France!

**HOSTED BY VETERAN TRAVELERS AND FRENCH FOODIES: JUDY WOOD (Executive Chef, Cooking Instructor) GAIL NORTON (The Cookbook Co. Cooks) and SUE WADE, with cycling guide JARRAD CONNOLLY.**

We have been traveling the Languedoc since 2002, and we can think of no better holiday than to combine our passion for food and wine and with our friend Jarrad Connolly, adding another abiding love, cycling through this beautiful area!

Our home base for the week is the small village of Olonzac in the Languedoc, close to Narbonne and Carcassonne, in the midst of the wine region of Minervois. The area has many historic sites and wonderful food markets, vineyards, olive groves, and restaurants. For sun-lovers, the beaches of the Mediterranean and Spain are a short trip away.

From our charming bed and breakfast we will venture out to cycle and enjoy the scenic and historic views of the area along with visits to local food and wine highlights – wineries, restaurants, markets and related sites.

The area that surrounds Olonzac affords a great variety of cycling tours, from the difficult rides of the Black Mountains to the leisurely, beautiful rides along the Canal du Midi. Each day you can choose a more aggressive ride or a more leisurely pace, or you may just decide to stay and relax around the pool. There is also an option for electric bikes.

Our accommodations are at the Eloi Merle, in the heart of Olonzac. This “grande maison”, once owned by a vineyard magnate, has been converted into a charming bed and breakfast, with lovely gardens surrounding a swimming pool, and next door to the city park and tennis courts.

# France 2024 Welcome to the village of Olonzac

Olonzac is a lush village in the Languedoc region, in the south of France, nestled amidst vineyards, olive groves and the rolling hills of the Aude. This charming village, population 1500, will be home for the week. The city of Narbonne is a half hour drive to the east on the Mediterranean coast, and the walled city of Carcassonne is a half hour to the west by car.

# France 2024 The cycling...

From leisurely to aggressive – it's beautiful – no matter which route we choose.

# France 2024 The work and the reward!

What better way to end a picturesque cycling tour than to stop in at a local vineyard wine tasting, or dine at a fabulous restaurant.

# France 2024 Cooking demos and classes

Ah... French cuisine. Let us help you de-mystify this most legendary cooking technique. Chef Judy Wood and Gail Norton are veterans of traditional French cooking. Judy trained in Paris at La Varenne. This masterful teacher is only too happy to share her wealth of knowledge. Gail Norton has been teaching cooking classes for over 30 years and is well-known and respected for her vast culinary knowledge. The classes and demos are casual and fun and you certainly don't have to be an experienced cook to enjoy and appreciate it. From duck confit, to how to prepare an artichoke, to pastry-making, we'll show you why French food and wine is so coveted.

Did we mention the wine? The Languedoc is France's largest wine producing region, with many small vineyards producing award-winning vintages. We will be meeting some of the most passionate and accomplished winemakers, and tasting some of France's finest wines.

# France 2024 The Canal du Midi

We are just minutes away from the Canal du Midi, one of the most famous water-ways in Europe, and one of the most beautiful, leisurely cycling routes you'll ever find.

This 360-km network of navigable water-ways linking the Mediterranean and the Atlantic through 328 structures (locks, aqueducts, bridges, tunnels) is one of the most remarkable feats of civil engineering in modern times. Built between 1667 and 1694, it paved the way for the Industrial Revolution. The care that its creator, Pierre-Paul Riquet, took in the design and the way it blends with its surroundings turned a technical achievement into a work of art. More than 250,000 plane trees (known as sycamore trees in North America) line the canal; the roots serve as natural levees, that stabilize the banks of the Canal.

# France 2024 A day at the market in Olonzac

Tuesday is Market day in Olonzac. The streets come alive with friendly vendors selling fresh produce, meat, spices, breads, cheeses, linens, and clothing. Markets are a rich and vital part of the culture of this region.

# France 2024 The medieval village of Minerve

Minerve was selected as one of Les Plus Beaux Villages de France (“The Most Beautiful Villages of France”). Perched on top of the gorge carved by the River Cesse before it disappears underground in a natural tunnel, this historical site is now filled with quiet shops and restaurants. The cycling to, and around, Minerve is stunning!
